SUMMARY

Frontend Engineer with **4 years** of experience leveraging **React.js**, **Tailwind CSS**, and more to craft user-centric web experiences. Proven track record of building **reusable components**, optimizing workflows, and **staying ahead of the curve**. Adept at **collaborating** with designers and backend developers to deliver impactful features that drive user engagement and business growth.

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions

Software Engineer - Frontend

Oct 2022 – present

- Spearheaded the development and maintenance of numerous responsive websites utilizing **HTML**, **CSS**, and **React** for a premier Timeshare Exchange Company in North America, ensuring **optimal user experiences** and seamless functionality.
- Fostered collaboration with design and backend teams to seamlessly **integrate new features** and functionalities, **fostering innovation** and continuous improvement.
- Engineered **reusable components** and templates leveraging React, HTML, and CSS, streamlining development processes and enhancing project scalability.

This role blends my passion for frontend development with a commitment to delivering exceptional **digital experiences**.

Jr. Software Engineer - Frontend

Aug 2021 – Sep 2022

- Led UI development initiatives for a top-tier Vacation Ownership Company in North America, leveraging **jQuery**, **HTML**, and **CSS** to deliver captivating user interfaces that elevate user engagement and satisfaction.
- Collaborated closely with design teams to contribute insights and assistance in UI design, ensuring **seamless integration** of design elements with robust functionality.
- Provided proactive **technical support** and **adept troubleshooting** for website issues, fostering seamless user experiences and mitigating potential disruptions.

In this role, I actively contributed to the enhancement of digital experiences, blending **technical expertise** with a proactive approach to **problem-solving**.

Programmer Analyst Trainee

Aug 2020 – Jul 2021

- Served as a vital UI resource for a major real estate entity in North America, contributing to the creation of captivating digital solutions.
- Collaborated closely with the Client Team to conceptualize and develop initial wireframes, ensuring alignment with client requirements and project objectives.
- Led the development of prototypes under client guidance, refining and iterating on designs to achieve optimal user experiences.
- Executed the development of final products utilizing **Salesforce (LWC)**, **HTML** and **CSS**, delivering robust and scalable solutions tailored to client needs.

During this tenure, I honed my skills in frontend development and **project collaboration**, gained **practical insights**, preparing me for future challenges in this realm.
